Order from SLA \$1.60 63-18002

Trans. of mono. of Forschungslaboratorien der CIBA  
A.G., Pharmazeutische Abteilung, Basel, 1963,

DESCRIPTORS: Cells (Biology), Reproduction, \*Tissue  
cultures, Temperature, Proteins, Antimetabolites.

The influence of the serum concentration in the culture  
medium, the influence of the incubation temperature  
and the influence of an antimetabolite on cell increase and  
the protein content of the individual cells was examined  
on monolayer cultures. It was found that the protein  
content of one cell varied considerably with these  
culture conditions. For instance on addition of 0.1 µg.
